

Fidelity Placement Experience

Name	ASHOK KUMAR K S
Package	12 LPA

Round 1 - Online Test:

- MCQ Test with Several Sections (English, General Tech, Aptitude, etc)
- 2 Coding Questions (Easy and Moderate Level)
- 2 Algorithms (Can be written in any way, just need to explain approach)

Round 2 - Technical Interview:

- Started with 'Tell me about yourself'
- Had many questions based on Tell Me about Yourself, So prepare your intro in such a way that it makes the interviewer ask more questions about yourself.
- Paper and pen were provided as well to draw out our solution/explain something more clearly to the interviewers.
- Duration - Varies from anywhere between 40-55 mins.
- I had 2 programming questions that needed to be written on paper and explained when asked.
- I was asked to write algorithms for sorting and searching algorithms.
- Most tech interviews involved lots of DBMS, DSA, etc questions

Round 3 - General HR:

- This round too started with 'Tell me about yourself'
- This was followed by some standard General Questions commonly asked in interviews.
- Some questions were
 - How do you see yourself in 5 years ?
 - How do you know you're fit for fidelity ?
 - Would you be happy to work with this company?
- Briefly went over the projects done by me (Detailed explanation was expected)
